B. V. Patel Institute of Computer Science, Uka Tarsadia University

BCA 6th Semester

Course Name: Project **Course Code: <<c>>**

Team Number	**BCA6_I01**				
Project Title	**PrepPilot AI – AI Powered Interview Preparation Platform**				
Student- guide interaction during	**Day**				Total Hours per week
	Time duration				
Project Objectives and definition	**Definition :** • PrepPilot AI is an intelligent interview preparation system built using the MERN stack. It allows users (students and job seekers) to create accounts, select topics (technical, HR, aptitude, subject-wise), practice questions and mock interviews powered by AI, and receive feedback based on their answers. Additionally, it offers premium paid features such as unlimited mock interviews, advanced AI suggestions, and detailed performance analytics. **Purpose :** • The purpose of PrepPilot AI is to provide a modern and interactive platform where users can effectively prepare for real-world interviews. It helps users improve their interview performance by practicing questions, attending AI-guided mock interviews, and reviewing detailed feedback. The inclusion of a subscription-based payment system enables users to unlock advanced features while providing a business model for the developer.				

Project functionalities	**Admin Functionalities** 1. Admin Login 2. Manage Users (View, Block, Delete) 3. Add / Update / Delete Interview Questions 4. Manage Topics / Categories 5. Configure AI Parameters for Mock Interviews 6. Manage Subscription Plans (Free / Premium) 7. View Performance Reports 8. View Payment Records 9. System Analytics Dashboard **Customer Functionalities** 1. User Registration 2. User Login 3. Choose Interview Category (Technical / HR / Aptitude etc.) 4. Practice Questions 5. AI-Powered Mock Interviews 6. Get AI Feedback on Answers 7. Chat with AI for Doubts 8. Upgrade to Premium Plan (Payment) 9. View Subscription Status 10. View Interview History & Detailed Analytics 11. Edit Profile
Semester project work	**Admin** • Login • Add / Update / Delete Topic Categories • Add / Update / Delete Interview Questions • Manage Users • Configure Subscription Plans • View Payments and Reports **Customer** **Customer** 1. Register / Login

	2. Select Interview Topic 3. Practice Questions 4. Start AI Mock Interview 5. View AI Feedback 6. Upgrade to Premium 7. View Purchase History
Number of the system user	1. Admin (System Administrator) 2. User (Student / Job Seeker)
Scope of the system	An AI-based online interview preparation system that allows students and job seekers to practice interviews, receive intelligent feedback, track performance, and improve confidence. The system also provides monetization through premium plans and AI-powered services.
Tools and Technology for current semester	**Tools:** VS Code, Postman, MongoDB Compass, GitHub, Figma **Technology:** MongoDB, Express.js, React.js, Node.js (MERN Stack), Tailwind CSS, JWT Authentication, AI API Integration (OpenAI/Gemini), Payment Gateway (Razorpay)

Declaration:

We hereby declare that the project titled **"PrepPilot AI – An AI-Based Interview Preparation System"** submitted for the fulfillment of the **BCA 6th Semester Project** at **B. V. Patel Institute of Computer Science, Uka Tarsadia University** is our original work carried out by the team members during the current semester.

We further declare that we will not change the above given project details for the entire semester. We are well aware that the project work must be developed by the team members and must not be copied and/or purchased from any external sources. We acknowledge that the Institute has the authority to take appropriate disciplinary action against us in case of violation and/or non-compliance of the same.
